About This Game

The simulator which reflects everyones favourite activity: Cleaning up!

To be honest, there is a small difference between real-life cleaning and this simulator, except you have a lot of money to re-buy all the furniture you destroyed during your "Clean up tantrum".

Here, you GET money from destroying your furniture to buy new tools (to destroy more furniture of course).

With the money you can also buy some rather useless stuff like booze.

Don't get your untidyness-bar too high or you will drown in trash.

The goal is to gather enough money for a cleaning company.

- Destroy your furniture
- Get money
- Tools are: Hammer, Nades, Flamethrower

Make your deepest dreams of cleaning up on the PC come true!

The furniture awaits you!

tidy your room simulator

This is the most horrible piece of game i've ever played i got enough money to buy a flamethrower but it didn;t even work.. it's worth the price, so just buy it. First to tidy my room!. I came home after a stressful day at school and then i came home started up my computer and looked around on steam for any games that could wash away all the stress and one result was titled Tidy Your Room Simulator i was i little confused but after i saw some screenshots i knew that i had to play this i downloaded it started it up and then had countless minutes of fun. I'll be following you're games.. So it's a fun little game but the title is misleading lol. You'll spend more time smashing furniture than actually tidying your room.

Here's a gameplay video:

Would I recommend? Well like I say in the video its not something you'll likely play for hours and hours. You'll likely get a good small bit of playtime out of and then put it down for awhile before picking it up again on a boring rainy day or something.

Is it worth 2\$? Debatable. Personally I think it would be better as a 99 cent game but oh well. Will I recommend it? If you're a fan of goofy small pick up and play games than yeah go ahead. If you're looking for something more that'll give you hours of fun then this game won't deliver.. cant even buy the dang flamethrower

On par with a good wank!
